

We can wait no longer and that is why I am here before you. We must work together to restore Palestine, a nation in despair and without hope. We must work together to restore peace, hope and opportunity to the Palestinian people. And in so doing, we will begin a process of building peace, not only throughout the region, but throughout the world. How much more bloodshed and how many more lives will it cost for this grave situation to be resolved?

I say: No more bloodshed and no more lives pointlessly taken.

The young boy, traveling to school with his brother in Palestine, let him have a life of peace.

The mother, watching with fear as her children board a bus in Israel, let her have a life of peace.

The father in Lebanon, working hard to provide an education for his children, let him have a life of peace.

The little girl, born in Iraq, with her wide eyes full of wonder, let her have a life of peace.

The family, together eating their evening meal, in Asia, Africa, North America, South America, Europe, Australia, and the Middle East, let them all have a life of peace.

Today my friends, we must speak. We cannot be silent.

The next time a Jordanian, a Palestinian, or an Israeli comes before you, let it be to say: Thank you for helping peace become a reality.

Peace be upon you.

Thank you very much.

[Applause, the Members rising.]

#### THE IMPERATIVE OF PEACE

(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. Mr. Speaker, a few minutes ago we heard King Abdullah of Jordan declare the imperative of peace between the Israelis and the Palestinians as central to assuring peace not only in the Middle East but throughout the world.

Speaking not only of Israelis and Palestinians but of Lebanese and Iraqis and of people all over the world, King Abdullah said, "Let them have a life of peace."

Indeed, it is our responsibility as leaders of the United States to respond to such an eloquent call by creating a restart of the peace process, which brings security, justice and peace to both Palestinians and Israelis.

When our brothers and sisters are killing each other, it is for us to use the power of compassion and love so that all may survive and prosper in security and peace.

This is a good moment for us to make a restart. This is a good moment for us to create a new context. This is a good moment for us to join with King Abdullah in speaking of people in the Middle East and throughout the world and saying, "Let them have a life of peace."

#### BRAC FUNDING

(Mrs. DRAKE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. DRAKE. Mr. Speaker, earlier this week I visited Walter Reed Army Medical Center, including outpatient residence Building 18.

Despite Walter Reed's status on the BRAC list, there is no excuse for offering anything but world-class patient care to our returning wounded warriors.

According to the BRAC Commission, Bethesda Naval Medical will take on the important mission currently handled by Walter Reed in 2011. Yet, only 5 weeks ago, the majority decided to take away \$3 billion from the BRAC ac-

count that is needed to allow them to build the facilities to take on this overwhelming responsibility.

I have asked the question then, and 5 weeks later have yet to have an answer, where is the money for BRAC and when will the money be restored for patient care for our men and women returning from battle?

#### SONIC FOUNDRY

(Ms. BALDWIN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BALDWIN. Mr. Speaker, I rise to recognize one of Wisconsin's own, the Sonic Foundry Company, for its well-deserved attention as leaders of the company rang the opening bell to start the NASDAQ trading day this morning.

Sonic Foundry is an example of a company excelling in innovation. Its Web technology is transforming business, government and educational institutions by allowing people to receive critical information and share knowledge. Their Mediasite technology is trusted by Fortune 500 companies, educational institutions and government agencies. In Wisconsin, use of this technology saved the State's budget \$800,000 in its first year of use.

Sonic Foundry's Mediasite technology also allows the exchange of video greetings and interactive content to be passed between separated family members. Military families have been provided this service for free during holiday occasions.

Wisconsin is proud of Sonic Foundry's accomplishments.

#### DIRECTO A MEXICO

(Mr. POE asked and was given permission to address the House for 1 minute.)

Mr. POE. Mr. Speaker, the Federal Government is helping and encouraging illegals in this country to send money south of the border. Here is how it works.

The Federal Reserve, in a program called Directo a Mexico, allows illegals that have no Social Security numbers and no American IDs to send billions of dollars through U.S. banks to Mexico.

The Federal Reserve, also at taxpayer expense, provides banks with promotional marketing propaganda in Spanish so as to appeal to the ever-growing illegal population. This untaxed money to Mexico is about \$23 billion a year and a drain on the United States economy.

The banks make a profit off the illegals and their transfers. It is all about banking greed. These transactions should be taxed, and the banks should be required to collect the taxes.

Keep some of that money in the United States to pay for all the social services that illegals obtain and don't pay for. Banks should not be in the business of helping illegals in the United States send money anywhere,
